### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The claimed device has a protection circuit with a semiconductor varistor that is connected between a bonding pad and an input terminal of a circuit where the resistance is low for normal voltages and high for high voltages. Hinatsu et al. show a varistor structure that has the claimed resistance/voltage relationship (see Figure 4) but the material is a superconductor. Shamouilian et al. show a varactor element in a circuit (see Figure 3) whose resistance can be increased or decreased (column 4, line 45) but do not teach the claimed resistance/voltage relationship. Brennan et al. teach the use of a varistor as a protection element (see Figure 20 and column 5, line 33) but the varistor is in parallel with the circuit. Thus the claimed device is not shown in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas A. Wille whose telephone number is (571) 272-1721. The examiner can normally be reached on M-F (6:15-2:45).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael Fahmy can be reached on (571) 272-1705. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
